Applying for Research **Funding**

TIMELINE

FEEDBACK AND PEER REVIEW

How do I ensure a strong proposal? Get as much feedback as possible from

colleagues and the School Research Facilitators.

Make sure you plan in plenty of time to request and incorporate feedback.

For large value funding applications (>£500k fEC) applicants are encouraged to use the AHSS Internal Peer Review Panel. The Panel aims to provide feedback within 15 days of the application's receipt.

SUBMIT APPLICATION

How to ensure a smooth submission process?

Register yourself and your collaborators in the funder's online submission system early in the preparation process. Giving your RGA administrator access is also good practice.

Depending on the project's value the application must be submitted to ROO either 2- or 5-working days before the funder's deadline.

What is required at department and Schools levels?

Work closely with the RGA to set out a timeline for obtaining the necessary Departmental and School approvals. Approvals must be secured before the application is submitted.

APPROVALS

Do you need to complete a £1M+ form (HSS departments only)? Restricted funding calls often require a VC or PVC Letter of Support.

Make sure you leave enough time

(at least one month) to work with the

RGA to compile and coordinate costings.
